The following slide corrects the “target” performance bandwidth for NEOs other than the CEO for our 2019 annual cash incentive bonus program. For NEOs other than the CEO, the “target” performance bandwidth (the value of the bonus opportunity for target performance) as a percentage of base salary is 100%, rather than 150% as provided on page 38 of the proxy statement.

Annual Cash Incentive Bonus Program

In response to the 2018 annual meeting voting results and to stockholder feedback and proxy advisory firm observations, our compensation committee re-designed our annual cash incentive bonus program to replace the relative TSR performance metrics with rigorous goals tied directly to company operational performance.
